

WE ARE HIRING!

SOFTWARE ENGINEER - MOBILE

We are seeking a skilled and forward-thinking Software Engineer with expertise in mobile application development to join our team. As a Software Engineer - Mobile, you will play a crucial role in designing, developing, and maintaining innovative mobile applications. You will collaborate with cross-functional teams to deliver high-quality products and contribute to the success of our software solutions.

REQUIREMENTS:

- Design, develop, and maintain iOS and Android mobile applications.
- Collaborate with product managers, designers, and engineers to understand and translate requirements.
- Write clean, efficient, and maintainable code for optimal mobile app performance and usability.
- Stay updated with the latest mobile development trends, tools, and best practices.
- Collaborate with cross-functional teams for seamless integration of mobile apps with backend systems.

QUALIFICATIONS:

- Bachelor's degree in Computer Science or related field. Relevant work experience is also considered.
- 2+ years of professional experience in iOS and Android app development.
- Proficiency in Swift or Kotlin programming languages.
- Experience with frameworks like Flutter, React Native, or native iOS/Android SDKs.
- Strong understanding of mobile app architecture and design patterns.
- Knowledge of mobile UI/UX best practices and familiarity with UIKit or Material Design.
- Familiarity with RESTful APIs and backend service integration.
