

ASSISTANT MANAGER - ENGINEERING

Are you a highly skilled and motivated engineering professional looking for a rewarding opportunity to take your career to the next level? We are currently seeking an Assistant Manager - Engineering - to join our dynamic team and contribute to our organization's success.

The Role

- Perform regular maintenance tasks on mechanical, electrical, and HVAC systems to ensure their optimal functioning.
- Develop and execute preventive maintenance schedules to minimize equipment failures and maximize productivity.
- Troubleshoot and repair complex equipment malfunctions by utilizing technical expertise and analytical skills.
- Collaborate with cross-functional teams, including production, quality assurance, and safety, to ensure smooth operations and adherence to standards.
- Maintain accurate maintenance records, including work orders, equipment history, and an inventory of spare parts.
- Ensure compliance with safety regulations and protocols while performing maintenance activities.

Qualifications

- Bachelor's degree in mechanical, Electrical, or Industrial Engineering (or a related field).
- 5 years of experience as a Maintenance Engineer in a manufacturing or industrial environment.
- Ability to work with AutoCAD, SolidWorks & PLC programming.
- Excellent problem-solving skills and the ability to analyze complex technical issues.
- Effective communication and interpersonal skills to collaborate with teams and stakeholders.
- Ability to work independently as well as in a team-oriented environment.

Join our innovative team as an Assistant Manager - Engineering and make a significant impact on our projects and overall success. If you are ready to take on this exciting challenge, please submit your CV to
