Digital Data Analyst – Intern

"SDB Bank, a licensed specialized bank regulated by the Central Bank of Sri Lanka with a network of 94 branches across the island. We've transformed into a progressive and innovative institution, ranked among the top banks in Sri Lanka. At SDB Bank, we are committed to making a tangible impact at all levels, driving socio-economic progress by fostering strong community connections. Become part of our journey and contribute to shaping a brighter future for Sri Lanka."

Position Overview:

This role involves collecting, cleaning and analyzing data from various sources to support business decisions. It includes creating and maintaining data dashboards and visualizations to present insights, as well as assisting in the development and implementation of data analysis methodologies. The position holder requires conducting both quantitative and qualitative analysis to gather insights that can enhance digital business strategies. Collaboration with different departments to meet their data needs and provide analytical support is a key responsibility. The individual will be responsible for identifying trends, patterns, and anomalies in data to inform business strategies, documenting data analysis processes, and measuring the effectiveness of campaigns and projects.

Candidate Profile:

- Currently pursuing or recently completed a degree in Data Science, Statistics, Computer Science, or a related field.
- Strong analytical and problem-solving skills.
- Proficiency in data analysis tools such as Python, R, or SQL.
- Experience with data visualization tools such as Tableau, Power BI, or similar is a plus.
- Strong communication skills to present data findings clearly

Interested candidates are invited to submit their curriculum vitae to careers@sdb.lk mentioning the position in the subject line of the email. Kindly note that only shortlisted candidates will be contacted.
