

SENIOR EXECUTIVE / EXECUTIVE ENVIRONMENT, HEALTH AND SAFETY

The Job

- Implement and review the Occupational Health and Safety (OHS) management system of the company.
- Conduct thorough risk assessments to identify potential hazards in manufacturing processes.
- Gather relevant data and maintain management information for the preparation of requested reports.
- Oversee waste management, air emissions, and water usage in compliance with environmental standards.
- Conduct regular audits and inspections to ensure compliance with Environmental, Health, and Safety (EHS) policies.
- Work closely with cross-functional teams, including production, and engineering.
- Ensure effective communication and cooperation with external entities and regulatory agencies involved in EHS matters.

Location: Welisara

The Person

- Bachelor's degree in occupational health and safety, Science, Facility Management, Engineering, or a related field approved by UGC in a related discipline.
- Educational qualification in an EHS-related field is an added advantage (NEBOSH - IGC, NIOSH, ISO 14001 & 45001).
- Excellent command of the English and Sinhala languages (written and oral).
- Minimum 2 years' experience.
