

WE ARE LOOKING FOR A **SOFTWARE ENGINEER - PHP**

We are Orit Apparels Lanka (Pvt) Ltd., a fully owned subsidiary of the Global Apparel giant Indochine International, and single-mindedly focus on all things denim! Tastefully combining traditional techniques of denim manufacture with cutting-edge technology, we at Orit have earned the formidable position of being one of **South Asia's largest denim manufacturers** possessing manufacturing capabilities par excellence with global standards. With a reputation for being '**outstandingly innovative**' in the denim manufacturing arena, currently Orit is home to some of the world's most premium brands which form its globally renowned portfolio of denims. We are looking for a young, vibrant and dynamic individual who can be part of our winning team in our main operational hub in Avissawella.

This job role will include the following:

- Being responsible for the full software development lifecycle
- Testing and debugging software applications
- Investigating new technologies
- Analyzing and attending to the needs of the end user

The right candidate will be a self-motivated individual below 30 years of age and will possess the following:

- Degree in Computer Science / IT from recognized University
- 2+ years industry experience in web application development
- Sound knowledge in full-stack development by using PHP and MySQL
- Experience in front-end technology development by using HTML, CSS/ Bootstrap, Javascript and JQuery
- Good analytical and problem-solving skills.
- Experience in Laravel 5 or above together with Git or SVN experience will be a definite added advantage
- Good understanding of database design and system architecture

An attractive remuneration package awaits the right candidate. Please forward your CV to vacancies@oritsl.com with two non-related referees on or before **30th April 2024**.
