CERTIFIED  
**ZERO**CARBON  
ORGANISATION

### About The Role

We are seeking a dynamic and experienced Software Systems Project Manager to join our team. You will be responsible for identifying our organization's software systems requirements, outsourcing such requirements to software vendors, and managing the projects from inception to completion. This is a pivotal role that requires strong project management skills, business analysis capabilities and an understanding of the capital markets landscape.

### Requirements

- BSc in Computer Science, Information Technology, or a related field
- Recognized qualification in Project Management (PMP, CSM, PRINCE2)
- Minimum of 5 years' experience in managing software implementation projects, preferably in capital markets or financial services
- Strong understanding of software development methodologies and lifecycles
- Ability to multitask, prioritize, and manage multiple projects simultaneously
- Excellent communication, negotiation, and interpersonal skills
