Intern — Garment Technology

Driven by curiosity, Brandix is a digital-first company that addresses unmet needs by manufacturing empowered apparel solutions, delivered by inspired people. Our 50 - year history is built on life-long relationships with global partners who share our purpose: inspiring a future that drives prosperity for everyone.

The Intern - Garment Technology is tasked with coordinating and offering technical support for the designated products/styles. This involves understanding customer requirements, conducting risk assessments during development, estimating consumption costs, developing patterns, coordinating sample development and fit sessions, obtaining sample approvals, and providing support for the handover of developed styles to Production.

Responsibilities

- Assisting with understanding customer requirements and coordinating for pre-sample development, including tasks such as risk assessment, consumption costing, and validation processes.
- Assisting with coordinating internal and external stakeholders to achieve sample development On-Time Delivery (OTD) and customer satisfaction objectives.
- Assisting in collaborating with the relevant internal teams for the effective production handover of developed styles.

Qualifications

- Undergraduate in Textile Technology, Apparel Manufacturing, Mathematics or a related field.
- Knowledge of Adobe Illustrator.
- Knowledge of Pattern making (manual or system).
