

Recruitment of National Teaching Diploma Holders (2020-2022) into the Sri Lanka Teachers' Service
Application for Placement

Collection of information for the purpose of giving away teaching appointments to the Diploma holders of the year 2020/2022 of the National Colleges of Education (NCOE) will be conducted online.

Accordingly, access to the online system will be open during the period from 20.03.2025 to 28.03.2025 for the Diploma holders to submit their online applications.

For Your Attention

- I. Applicants are allowed to submit the completed application to the online system only once and they shall not get a chance to amend the details provided once submitted. Therefore, before submitting the application, applicants must carefully read and understand the instructions given in the instruction sheet.
- II. However, the applicants can log into the online system any time using their username and password during the period it will be open for access and view the submitted application.
- III. Placement shall be made according to the merit order in the results sheet provided by the National Institute of Education (NIE) giving priority to the province considered during the enrollment to the NCOE.
- IV. Even if you have not conveyed your preference, the applicants who have obtained the lowest rank in the merit order in a respective subject will be placed to fill the essential vacancies considering the service requirement, and also if the vacancies available in your province are not sufficient, you will be placed in another province where there are vacancies.
- V. Further, placements will be made only for the confirmed vacancies and the request letters submitted by school principals will not be considered in any way.
- VI. As the placement of Diploma holders is done by strictly following the aforesaid procedure which is solely based on the merit order provided by the NIE, it is especially advised to avoid getting caught by fraudsters who try to get money by promising you to give you your preferred workplace as the placement.
