Strengthening resilience of vulnerable communities in Sri Lanka to increased impacts of climate change (ADAPT4R)

Recruitment of Project Staff

The main goal of the above project is to strengthen the climate change adaptive capacity and food security of vulnerable communities in Sri Lanka's dry zone. The project will enable vulnerable groups to strengthen access to use Last Mile Climate Services (LMCSs) to develop systems to co-produce, disseminate and scale up tailored agro met and hydro met advisories and enhance the adaptive capacity of poor farming households facing high climate risks, with a focus on women and vulnerable groups, to develop and implement local adaptation plans informed by climate advisories, resulting in improved practices, and diversified, climate – resilient livelihoods.

Ministry of Environment is the Executing Entity and the World Food Programme (WFP) is the Multilateral Implementing Entity of this Project. The project is implemented in collaboration with multiple stakeholder organizations both at national and sub national levels. The project grant amount is USD 6,997,762 and the project period is 5 years from 2025 - 2029. The project is implemented in Monaragala, Kurunegala, Trincomalee, Mannar, Mullaitivu and Vavuniya Districts.

The Ministry of Environment calls for applications to recruit project staff to the National Project Executing Team (NPET) in Colombo and Project Implementation Units (PIUs) for 6 districts for the above project as per the Management Services Circular No. 01/2019.
