Job Description

SriLankan Airlines Engineering

Ready to turn your engineering degree into a real aviation career?

As Sri Lanka's national carrier accelerates into an exciting phase of growth, we are calling on passionate, curious, and ambitious young engineers who dream of working on real aircraft, solving real engineering challenges, and being part of a world-class airline engineering team.

This opportunity is uniquely presented to those who aspire for a fascinating career in **Aeronautical Engineering**. The Graduate Trainee Engineers Programme offers you the chance to join a dynamic and professional airline engineering environment, where learning, innovation, and excellence come together.

Who We're Looking For

Candidates who have completed their Bachelors or Master's degree (preferably with a class) in Engineering from a recognized university (UGC approved) or equivalent recognized professional qualification (IESL or EC (UK) in Mechanical, Mechatronics, Electrical, Electronics, Aeronautical, Aerospace Engineering or Aircraft Maintenance.

What You Will Experience

Does solving real world challenges and working on exciting projects within a dynamic high-performance team in the aviation realm sound like your calling? Then this programme is for you.

The programme will provide hands-on exposure to the driven, ambitious, and determined individual/trainee with maximum wholesome technical and airline management skills, at floor and corporate level, which will enable all our trained personnel with the fullest capabilities of being an efficient and productive part of the SriLankan family.

You will undergo a training programme which will span over two-year period. The training programme will develop and prepare you for the career as an Aircraft Engineer.

- Candidates should be aged between **21 to 28 years** as at **13th February 2026**.
- Candidates who excel in the selection process will be offered a training contract, subject to a service bond as per company policy.
- At the end of two years, upon successful completion of the training contract, candidates will be offered employment as Engineering Executives.
- At the end of the third year, after fulfilling the required eligibility criteria accepted by the organization, you will progress to Aircraft Engineer grade.

If you think you have what it takes to be a part of the national carrier of Sri Lanka, we are waiting to hear from you.

Influencing will not have any bearing on the selection process which will be purely based on performance and merit.

We are an equal-opportunity Organization.

Please note that we will correspond with you within a month of closing the advertisement in the event your application is shortlisted for consideration.
