

NEXT GEN

FAST TRACK MANAGEMENT TRAINEE PROGRAM

Building the Next Generation of Business Unit Heads in 18 Months

MediHelp Hospitals, Sri Lanka's largest primary care hospital network with over 22 hospitals and 300+ diagnostic centers, is entering a phase of rapid expansion toward 40 hospital locations. To build the leaders required for this growth, MediHelp is launching a fast-track Management Trainee Programme—a hands-on leadership journey where participants are immersed in real hospital operations from day one and developed to lead teams, manage performance, and run hospital business units within 18 months.

Education

A degree from a recognized university or a professional qualification in Management, Marketing, Science, Finance, Accounting, or Economics.

Experience (Preferred, not mandatory)

- Up to one year of work experience in any role.
- Leadership exposure through youth, volunteer, community, or sports organizations.

What You'll Become in 18 Months

- A high-performing business leader
- Head of a Medihelp hospital business unit
- A leader of multidisciplinary teams
- A decision-maker managing operations, people, and performance
- A trusted representative of Medihelp within the community
- A real Business Head—not just a title

Age & Language

- Age: 23 – 30 years
- Fluency in English and Sinhala

Personal Attributes

- Strong people and communication skills
- Ability to perform under pressure and adapt quickly
- Energetic, driven, and task-oriented
- Willingness to take ownership and accountability
- Team-oriented with a strong work ethic
