OUR TEAM**

At Brandix, our progress is driven by curiosity, collaboration, and a shared commitment to creating meaningful impact. With over 50 years of experience, we partner with global brands to deliver inspired apparel solutions while working towards our purpose of inspiring a future that drives prosperity for everyone.

Intern — Fabric Technology

What you will do:

- Identify and validate new raw materials, yarns, and fabrics from global and regional sources aligned with Brandix strategies
- Ensure compliance with customer specifications
- Manage color requirements effectively, meet supplier deadlines, follow up on delays, and engage with external mills on new developments
- Foster strong relationships with suppliers, customers, and internal stakeholders

Ideal profile:

- Undergraduate in Textile or Clothing Technology or Material Management or any other relevant stream
- Possess good knowledge of fabrics and the Textile network in the industry
- Possess excellent interpersonal and leadership skills as well as a positive and problem-solving attitude

In this role, you will be responsible for ensuring all SBU-developed and sourced raw materials meet customer quality standards and specifications on the first attempt through mill evaluations, risk assessments, and technical pre-production validations, while aligning suppliers with Brandix processes and customer compliance requirements.
